Family Friend and Neighbor Provider Supports	• \$640,000 (State General Fund)

Transitional Kindergarten	 \$125,000 for WSIPP to do a study about statewide student participation in Transitional Kindergarten (State General Fund) Budget language providing that due to significant growth in Transitional Kindergarten programs, the Superintendent of Public Instruction must adopt rules regarding Transitional Kindergarten entry (Vetoed by Governor Inslee) The Governor's veto message includes the following: This section requires the Office of the Superintendent of Public Instruction to establish rules regarding exceptions to uniform entry qualifications for kindergarten admission. This section caps the appropriations for transitional kindergarten at the fiscal year 2022 funding level while allowing school districts to use local levy revenue for any expansion of the program. Because this would limit school services for our young learners during and after the pandemic, I cannot support this proviso. Therefore, I have vetoed Section 504(12)(b). However, I request that the OSPI, upon the conclusion of a Washington State Institute for Public Policy study, work with agencies and stakeholders under the rulemaking authority in RCW 28A.225.160 to fulliher define how school districts may grant exceptions to the uniform entry qualifications based on the ability, or the need, or both, of an individual student as laid out in statute. Full message here.
